

GROUPS

It's not only about championships or who wins. At the end of the game, it's about making memories with your employees, team, customers, family, and friends. It's giving them something that they will be talking about the next day. You don't have to be a hockey fan to have a great time. It's the excitement, the music, the fan with their face painted, the cotton candy, the atmosphere.. **IT'S MORE THAN JUST A GAME!**

A group from work attended a Cyclones game. As the group leader, it was extremely easy to organize thanks to the world class customer service that we received from our account executive. He helped us pick the right package, as well as secured us incredible seats. He even visited us personally at the game to make sure we were enjoying our experience! WOW, what an incredible value. We will definitely be back for another group outing!
